

EDGE GENERAL LIABILITY

Acuity Edge General Liability is designed for business where the class might not otherwise be acceptable. It gives you an edge because we use the same coverage forms and endorsements that apply to all our other general liability policies.

New Classes of Business

- Water mains or connections construction
- Sewer mains or connections construction
- Stone crushing
- Sand or gravel digging
- Clay or shale digging
- Quarries

Additional Height Classes (4-6 stories)

- A/C dealers/distributors

- Painting-exterior buildings or structures
- Painting-interior
- Plastering/stucco work
- Sheet metal work
- Siding installation
- Sign painting/lettering on building
- Solar energy
- Tile or stone work-interior

Acuity has always been willing to write good general liability accounts with incidental exposures that do not meet our normal guidelines—and we still do. But with Acuity Edge, you can place business that previously was beyond the edge of acceptability. And you will receive the same service you've come to expect with Acuity!
